It’s More Than Just A Softball Game For Charity!

This past week I was asked what is this "Strong & Courageous" Recovery Festival all about? I simply answered "well, it's more than just a charity softball game, it is about bringing organizations together with one message, that recovery is possible." "Last year we had limited space at Harry & David Ballpark along with it being held so late in the summer, so we were unable to invite many local agencies to join us. Therefore, we secured the Jackson Aquatic Park & Fagone Field Ballpark to be our venue this year so we (The ROC & Impact Athletics) could host its 4th Annual Strong & Courageous Recovery Festival on Saturday July 15th at 10am.

"We thought it would be fun to provide families in our community an opportunity to come out for the event and have some fun together. I am not sure the our community is aware that currently Oregon ranks 2nd in the nation for teen drug use ages 12 to 18. Therefore we have created an event in hopes to bring people from all ages out to the event. We have many local organizations joining us that also see the need to come together and promote health & wellness," said Doug Gould Executive Director of the ROC.
